

GOOD TO KNOW

Are you planning to fry your food?

In case of barbequing, frying or deep frying, the installation of an extractor hood has to be hired with additional costs. The rental fee for the extractor hood is 2.000 €*. If two exhibitors can share one extractor hood, the rental fee will be reduced by half. After the registration deadline (approximately in late summer) we will check the possibility of sharing.

Use of gas

The operation of propane gas is not allowed within the exhibition halls. If your cooking equipment is suitable for natural gas as well, the connection for gas can be booked through our BECO-Shop at an additional charge.

Water supply directly on your stand

An additional water connection directly for your own stand can be booked through our BECO-Shop.

*All prices are plus 19% VAT.
