OUR CORE AREAS.

FRESH PRODUCE

We are a global marketplace for fruits and vegetables, where fresh produce growers, experts, buyers and distributors from 145 countries meet for business.

MACHINERY & TECHNOLOGY

Follow the industry's rapid developments: from artificial intelligence in agriculture to high-tech machines for the food processing industry. Experience efficient and sustainable solutions for the future.

LOGISTICS

Getting fresh fruits to their destinations around the world - efficiently and sustainably - is a major challenge. We present new solutions for fresh produce logistics and cover topics related to supply chain management - such as storage, robotics, cargo drones, artificial intelligence and ports.

WHERE NEW IDEAS SPROUT.

Smart Agri & Greenhouse Technology

From digital solutions for agriculture to innovative concepts for greenhouse and vertical farming: we offer a view of tomorrow today.

Organic Route

On our specially designated Organic Route, you can reach those exhibitors specifically showing certified organic produce.

Startup World

An environment where new businesses can sprout. In our Startup World, we connect young companies and their future-oriented ideas with the global industry.

Specialist Forums

Experience over 90 lectures and panel discussions - live on six stages - by more than 120 renowned experts.

FRUIT LOGISTICA Innovation Awards (FLIA)

The FLIA Awards recognize outstanding innovations across the fruit and vegetable supply chain.
